

THE POWER OF THE ECOSYSTEM

The TradeLens ecosystem is
you: every organization in the
end-to-end journey of a cargo
shipment, coalescing around
a secure and
versatile platform.

The TradeLens ecosystem is comprised
of over 100 diverse organizations
including carriers, ports, terminal
operators, 3PLs, and freight forwarders.

Its also comprised of shippers from around the world. Together, participants publish and subscribe to data under a shipper determined digital permissioning model.

BENEFICIAL CARGO OWNERS

Beneficial cargo owners (BCOs) at the heart of the supply chain are looking for new ways to work with their supply chain partners and manage their shipments from booking to delivery.

TRADELENS FOR BENEFICIAL CARGO OWNERS +

3PLs / FREIGHT FORWARDERS

Third-party logistics providers (3PLs) handling their customers' cargo want more visibility up and down the supply chain so they can act fast and lower the cost of every shipment.

TRADELENS FOR 3PLS/FREIGHT FORWARDERS +

INLAND TRANSPORTATION

Train, truck and barge operators are looking for trustworthy data that helps them to predict and optimize equipment utilization, speed up pick-ups and drop-offs and reduce queueing times.

CUSTOMS / GOVERNMENT AUTHORITIES

Authorities and agents in charge of the import and export of goods want powerful new tools to help them simply and clearly identify risks and efficiently process huge volumes of trade that cross their borders.

PORTS & TERMINALS

Port communities and terminal operators are seeking ways to reduce the cost of connecting partners in the supply chain in order to increase stack placement efficiency and optimize truck and vessel service times.

OCEAN CARRIERS

Carriers around the world are looking to gains efficacy and improve asset utilization, in order to maximize profit margin, minimize losses and offer competitive rates on every shipment.

FINANCIAL SERVICES

Financial service providers, including insurance companies, want to eliminate discrepancies on policies and letters of credit and reduce claims adjustment costs with a verifiable and agreed source of truth.

SOFTWARE DEVELOPERS

Specialists in digital supply-chain software solutions want to develop apps for global BCOs, carriers and government authorities on a single, open platform with a dedicated marketplace.
